- **Non-SU Items:** Post-it Note
- ***BUNDLE and SAVE: Fruit Basket Bundle (145977-OCC)** includes the Fruit Basket Photopolymer Stamp Set and the Itty Bitty Fruit Punch Pack

Measurements:

- **Real Red:** 2-1/8" square
- **Lemon Lime Twist:** 1-3/4" square
- **Whisper White:** 1-3/4" square; 3" x 1/2" sentiment; scrap for watermelon slices
- **Tutti-Frutti DSP:** 5-1/4" x 2-1/8" layer

Instructions:

1. Cut all pieces as outline above.
2. Use SNAIL to attach the Tutti-Frutti paper to the bottom of the POOL PARTY card front.
3. Use a length of the Lemon Lime Twist ribbon and tie and bow around the card front offset from the center. The ribbon should cover the edge of the DSP.
4. Use Memento ink to stamp the sentiment toward right end of the 1/2" strip. To create a simple small banner end, use Snips to about 1/4" in to center, then cut the angle from each corner to the end of that cut to create the notch.
5. Create a mask for the bowl and watermelons (3) by stamping the outline on the front of the post-it note where the sticky strip is (only part of it needs to be on the sticky strip – so that it can be tacked down). Use snips to cut these pieces out. Set them aside for a moment.
6. Use Memento ink to stamp the bowl outline toward the bottom of the Whisper White square. Use Island Indigo ink to stamp the bowl's color. Place the bowl mask over the bowl. Use Garden Green to stamp a watermelon outline half in the bowl. Stamp the rind in Lemon Lime Twist and the flesh in Real Red or Calypso Coral. Place a watermelon mask over this image and stamp another. Continue this until you fill your fruit bowl using the other masks – you will have to move them as needed but shouldn't need more than three at any one time.
7. Use the 1-5/8" square Stitched Shapes Die to cut the fruit bowl for layering. Use the 2" scallop Layering Square to cut the red layer. Use SNAIL to adhere the Lemon Lime Twist square to the red square then the fruit bowl square to the top.
8. On the scrap of white cardstock, create several watermelon slices as above (no need for outline) and use the punch to cut them out.
9. Use a Dimensional to attach the sentiment to the back of one corner of the fruit bowl layer. Then, use additional Dimensionals to attach the layer to the card front. Use glue dots to adhere the watermelon slices randomly by the fruit bowl and spilling off the layer.
