Instructions:

1. Cut and score all pieces as outlined above.
2. Use Early Espresso ink to stamp...
 - a. The sentiment on the Very Vanilla sentiment layer.
 - b. The inside sentiment in the upper left corner of the Very Vanilla inside layer.
 - c. The rose outline image randomly on the Very Vanilla 4-3/4" x 2" layer.
3. Use Coastal Cabana ink to stamp...
 - a. The flower filler image in the Espresso rose outlines and randomly on this layer to fill the empty spaces – use Stamping Off technique.
 - b. The flower highlight image in the Early Espresso rose outlines – do not stamp off.
 - c. The flower highlight image on the 4-1/4" x 1-3/4" Very Vanilla layer – use Stamping Off technique.
 - d. The Rose outline image in the upper right and lower left corners of the Very Vanilla inside layer.
4. Use Tombow or Seal adhesive to attach one of the 5-1/4" x 4" Coastal Cabana layers to the inside of the card base. Use the same adhesive to attach the 5" x 3-3/4" Early Espresso layer over the Coastal Cabana layer. Then, attach the Very Vanilla inside layer over that, using the same adhesive.
5. Use Tombow or Seal adhesive to adhere the Very Vanilla layer with the Early Espresso rose outline images to the 5" x 2-1/4" Early Espresso layer. Use the same adhesive to attach this layer to the remaining 5-1/4" x 4" Coastal Cabana layer – centered between the top and bottom about 1/8" from the left side. Adhere the Very Vanilla flower highlight image layer to the remaining Early Espresso layer. Use Dimensionals to attach the Coastal Cabana layer centered over the right edge of the previous layer.
6. Tie a length of the Faux Suede Trim around the Coastal Cabana layer ending with a bow centered on the rose outline layer. Trim ends using Snips. Use adhesive to adhere this layer to the card front.
7. Use adhesive to attach the sentiment layer to the small remaining Coastal Cabana layer. Use Dimensionals to attach this layer to the to the card front.
 - a. I used Mini Dimensionals to do this. I placed one in each corner – then on the right side of the sentiment (the end of the word, I placed another one on top of the ones in the corner to make it flat (since half of the sentiment is attached to a layer already lifted with Dimensionals.
