- **Whisper White:** 5-1/4" x 4" layer (cut 2); 5-1/2" x 1-1/4" layer; 3-3/4" x 1-3/4" tag

Instructions:

1. Cut and score all pieces as outline above.
2. Use Just Jade ink to stamp the single flowering branch image multiple times randomly to fill the 5-1/2" x 1-1/4" Whisper White layer to create a custom DSP. Stamp one branch in Just Jade at the bottom right corner of one of the 5-1/4" x 4" Whisper White layers.
3. Use the Tasteful Textures embossing folder and the Cut & Emboss Machine with the Specialty Plate to add texture to the 5-1/2" x 1/2" Just Jade layer.
4. Use Memento ink to stamp the sentiment on the Whisper White layer with the Jade branch in the corner. Use Seal to adhere this layer to the interior of the card base.
5. Set up the Stamparatus with the large flower image.
 - a. Place a piece of grid paper on the Stamparatus.
 - b. Place the remaining 5-1/4" x 4" Whisper White layer over the grid paper so it is positioned in the corner. Make a couple little pencil marks on the grid paper at the edge of the cardstock you will know where the edge of it is once you take the layer off.
 - c. Place the clean stamp face-down (as if stamping) on the Whisper White layer in the desired place. Bring the Stamparatus Plate down to pick up the stamp – be sure to press firmly to make sure there is a good bond between the stamp and the plate.
 - d. Lift the plate and remove the layer.
 - e. Next, ink the stamp and stamp onto the grid paper. Lift the plate.
 - f. Position the 3-3/4" x 1-3/4" Whisper White tag so that it a little catty-corner and is overlapping about half of the flower image. Use the magnets to hold in place – but not where they will interfere with the stamping.
 - g. Ink the stamp using Memento ink and stamp the image on the Whisper White tag.
6. Use Seal to attach the white tag layer to the Just Jade tag layer so that it is centered. Punch the tag top using the Fancy Tag Topper punch.
7. Use Memento ink to stamp the Birthday sentiment in the upper right corner of the 5-1/4" x 4" Whisper White with the flower image. Use Seal to adhere this layer to the front of the card base.
8. Use Seal to attach the custom DSP layer to the left side of the sentiment layer. Use Seal to attach the textured jade layer to the left edge of the card over the DSP layer.
9. Use Dimensionals to attach the tag to the card front – positions so that the stamped images line up.
10. Tie a bow from a length of the Just Jade ribbon and use a glue dot to attach to the top of the tag layer.
