## Measurements:

- **Seaside Spray:** 5-1/2" x 4-1/4" card base – portrait (scored on side)
- **Misty Moonlight:** 5-1/4" x 4" layer (cut 2)
- **Sahara Sand:** 5" x 3-3/4" layer (cut 2)
- **Whisper White:** 4-3/4" x 3-1/2" layer (cut 2); scrap ≈ 5" x 1-1/4"

## Instructions:

1. Cut and score all pieces as outline above.
2. Place a piece of washi tape or scrap paper across one of the Whisper White layers about 1-3/4" from the bottom (portrait). Create your own custom DSP-look by randomly stamping several images all over the layer above the washi tape. Some of the images can be stamped partially on the tape as long as no image goes below it. Remove the washi tape. This is our top outside layer.
  - I used Seaside Spray ink for the larger flower images, Sahara Sand ink for the leaf images, and Misty Moonlight ink to for the smaller flowers.
3. Use the same stamps in the same colors to stamp a random border at the top and bottom of the remaining Whisper White Layer. This will be your top inside layer.
4. On the white outside layer, use Sahara Sand ink to stamp the sentiment in the white space below where the washi tape was. Use the same ink to stamp the sentiment on the white inside layer
5. Stamp several more of the larger flower image on the piece of scrap Whisper White using the same color ink as you did for the image in step 2. Punch the flowers out using the Small Blossom Punch.
6. Use adhesive to assemble the inside layers. Attach the Whisper White sentiment layer to one of the Sahara Sand layers. Then, attach this layer to one of the Misty Moonlight layers. Then, adhere this layered layer to the inside of the card base.
7. Use adhesive to attach the outside white layer to the remaining Sahara Sand layer. Wrap a length of the Seaside Spray ribbon around the layer where the washi tape was. Tie it in a bow and use Paper Snips to trim the ends.
8. Use adhesive to attach the Misty Moonlight layer to the front of the card base.
9. Use Dimensionals to attach the white outside sentiment layer to the card front.
